

# Bell Middle School

620 Briarwood Rd.  
San Diego, CA 92139

Sub-district: E  
Cluster: Morse  
Year School Opened: 1967  
Grades: 9-12

- ① Whole Site Modernization
- ② New Synthetic Turf Fields
- ③ Exterior Paint and Graphics
- ④ Landscape Improvements
- ⑤ Solar Photovoltaic System

Bell Middle School sits high on a hill in the Paradise Hills community. Cooled by ocean breezes, the campus' location offers students a commanding view of San Diego. The school serves more than 900 students from the richly diverse area. Electives at the school include Spanish and Tagalog. Bell maintains a partnership with UCSD to beautify the campus and tutor students, as well as a partnership with Blacks in Government (BIG), San Diego State University and the Union of Pan Asian Communities (UPAC) to provide mentoring to students.

The campus consists of 35 acres and is situated in a residential neighborhood. The school includes 14 permanent buildings, 11 of which were completed in 1969, two classroom buildings completed in 1996, and a library building that was added in 2015. In total, the school features more than 154,000 square feet of academic and support facilities. In addition, the campus features shaded lunch structures, a synthetic turf field, a large dirt play area, a library, a multipurpose center, and a gymnasium. The school is located in climate zone 3 (inland) and received site-wide air conditioning as part of the district's HVAC 2000 program.

# Bell MS Whole Site Modernization

Completed: January 2016  
Funding: Proposition S and Z

## The Whole Site Modernization Project

Student restroom upgrades

# Bell MS New Synthetic Play Fields

Completed: September 2016  
Funding: Proposition Z

A new 65,500-square-foot synthetic turf field was installed over the existing decomposed granite play field. An additional 14,450-square-foot rubberized ballfield with new asphalt play area was also included. The fields feature a soccer area, a small-scale baseball diamond with a dugout, and a running track. The installation included irrigation for cooling and cleaning purposes.

# Bell MS Landscape Improvements

Completed: May 2018  
Funding: Proposition S

# Bell MS Solar Photovoltaic System

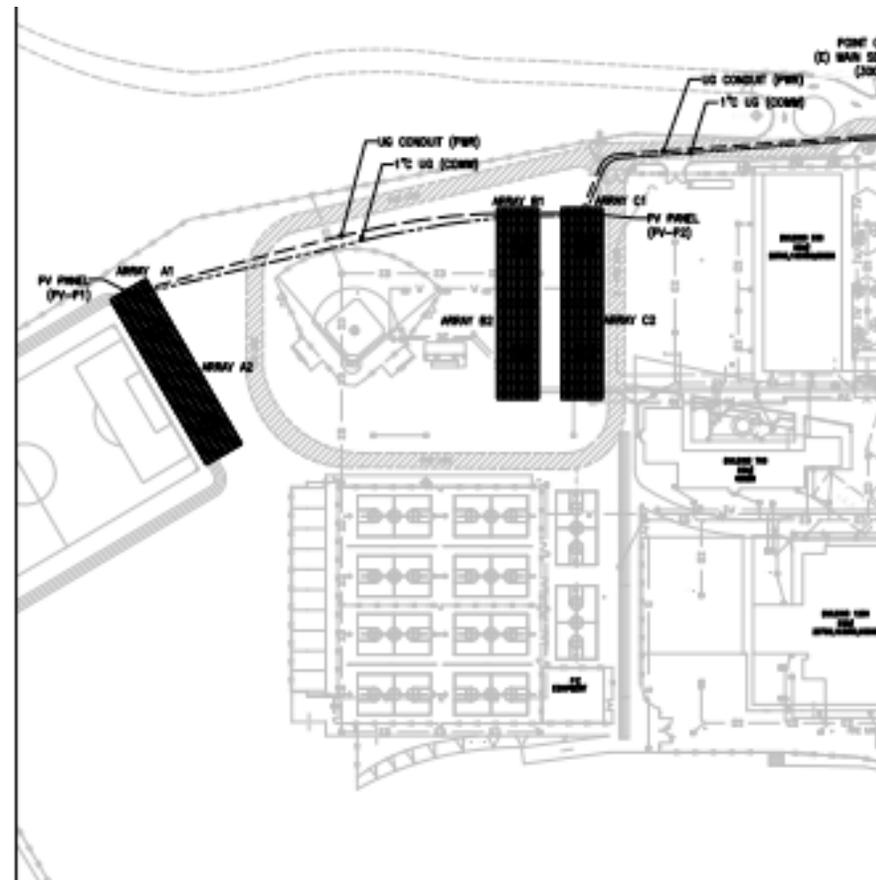

Completed: October 2021

Funding: Proposition Z

The Solar Photovoltaic System for this campus has solar panels that are mounted on tilt elevated canopies at the playfield. These canopies provide shade structures and under-mount LED lighting for parking lots. This system creates an energy-efficient and renewable power source. It delivers a clean energy supply during both the academic year and school vacations.

All elements of installation include, but not limited to:

- Solar PV modules
- Inverters
- All electrical connectors, cabling and components necessary for a complete solar system
- All mounting systems
