

# Euclid Elementary School

4166 Euclid Ave.

San Diego, CA 92105

Sub-district: E  
Cluster: Crawford  
Year School Opened: 1916  
Grades: K-5

- ① Two-story Classroom Building
- ② New Synthetic Turf Field

Euclid Elementary School has been at the heart of East San Diego's City Heights community since the early 20th Century. Today, the learning community is incredibly diverse, with families representing Burma, Indochina, Korea, China, Somalia, Ethiopia, Mexico, and other Central American countries. The school's proximity to the Euclid Children's Center, the City Heights Community Center, and the Kroc Corps Community Center, makes it conducive to learning and youth activities.

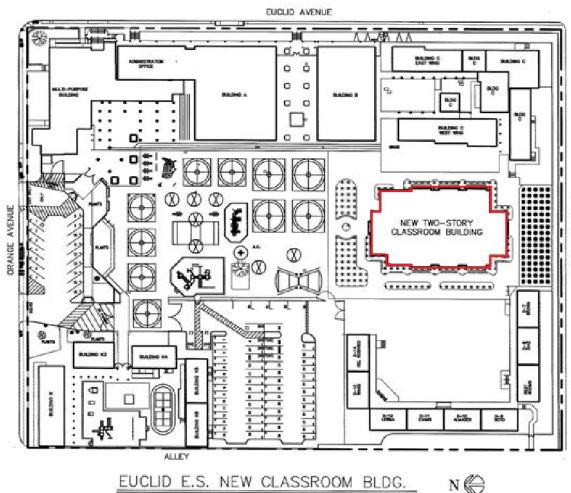

Opened in 1916, much of the original campus, which comprised of buildings completed in the 1920s, was demolished and rebuilt in 1975-76. Currently, the oldest building on campus dates back to 1938. Since then, four buildings were added in 1991 and the most recent, a two-story classroom building, was completed in 2014. The 6.62-acre school site is currently comprised of 14 permanent buildings and 12 portables that were added over time to support the growing student population. In addition to the nearly 80,000 square feet of building area on campus, an approximately 9,000-square-foot licensed Child Development Center is located on the campus' southwest side on Menlo Avenue. A new synthetic turf field was installed in 2016 for physical education activities.

Completed: April 2014  
Funding: Proposition Z

In order to ease overcrowding at Euclid Elementary School and revitalize the school, a new two-story, 13-classroom building was constructed on the south end of campus. This project replaced 13 portable classrooms with the approximately 19,000-square-foot, permanent building. The new classrooms are equipped with 21st century technology, which includes interactive whiteboards and personal laptops.

The building's exterior features vibrantly colored facades on the east side and west side of the building, giving a unique and child-friendly appearance as well as creating a stimulating environment for children. Landscaping was installed to create a more pleasant learning atmosphere, including a tree dedicated to the lives lost during the 9/11 terrorism attacks.

## New Building Features

- 13 classrooms
- Air conditioning
- i21 technology infrastructure
- Elevator
- Restrooms

# Euclid ES New Synthetic Turf Field

Completed: October 2016  
Funding: Proposition Z

An existing asphalt play field was replaced with an approximately 10,000 square foot synthetic turf playfield.

The field features a soccer field and irrigation for cooling and cleaning purposes.
