① Whole Site Modernization

Logan K-8 School is in the community of Logan Heights. The school enrollment of approximately 630 students is as diverse as the neighborhood it serves. The school has a K-6 elementary program and a 7-8 middle school program on the campus. The faculty applies the STEM (Science, Technology, Engineering and Mathematics) education to their instructional program.

Since the school's opening in 1891, the campus has gone through many changes. The existing campus buildings consist of one permanent structure that was built in 1975 that houses classrooms, administration office, kitchen and food services, library and multipurpose room and 29 portable classrooms. All of the campus structures total 83,525 square feet.
