Nipaquay Elementary School will be a pre-school-5th grade campus serving the residents of the new Nipaquay development and the current/future developments in the heart of Mission Valley. This proposed new campus will have approximately 47,000 square feet of learning and support space with one and two-story classroom buildings, an administration building with support services, library and maker space and a multi-purpose building with auditorium and food services. The staff parking lot will be designed to accommodate student drop-off and pick-up efficiently.
