Comments:
*The District used a weighted value method to determine the low bidder for this project and each item on the Quotation Sheet has been assigned a weighted value percentage (%). The total number of line items on the Quotation Sheet (15) represents a total value of 100%. The bidder's price for each item was multiplied by its individual weighted value to determine the value of the item as it relates to the project as a whole. The weighed value <u>does not</u> represent what the District will pay for the item but was simply a <u>means to determine the low bidder</u> . The bidder's offered prices will remain unchanged, and the apparent low bidder's prices will be accepted as the contract prices upon award.
**For awarding purposes only – contract value not-to-exceed \$350,000 annually.
***Did not meet DVBE requirements.
****Clarification received on item misread at time of bid.
