PROJECT DESCRIPTION AND SCOPE OF WORK

1. BACKGROUND

San Diego Unified School District’s capital improvements are funded by three General Obligation bond measures, Proposition S, Z and measure YY. In an effort to provide a quality school in every neighborhood, the district is using Proposition S, Z and measure YY funds to repair, renovate and revitalize district schools. Franklin Elementary School was originally built in early 1930’s. While the school has received extensive upgrades and improvements over the years, the Long-Range Facility Master Plan showed that the site needs significant improvements. Based on the comprehensive planning study, the District concluded that Franklin Elementary School is to have a Whole Site Modernization.

2. PRELIMINARY ANTICIPATED PROJECT SCHEDULE (Subject to change at the District’s discretion)

Stage 1: Preconstruction Services	Beginning December 2019
Stage 2: Construction Services WSM	Beginning January 2023

Franklin Elementary School

Franklin Elementary School is an existing Elementary School being modernized for a capacity of 424 students. The design of Franklin Elementary School needs to be further developed. The scope which is not completely developed in the drawings, is described in the Specification Section, 01 10 00 Summary, and in this attachment and will be required as part of the contract. Once the design is completed the Project Documents will require DSA review and approval before construction of this work can begin. Public Improvements work as well as any possible shoring adjacent to Franklin Elementary School will require further review with the City of San Diego in order to obtain approval prior to the start of construction. Franchise Utility Coordination will also require further review with the Utility Companies.

The Services for Franklin Elementary School is divided into Preconstruction Stage and Construction Stage Services. Refer to attached Project Stage Timeline.

Stage 1 of the Project continues through approval of the Project plans by the Division of the State Architect (“DSA”) and development and Board approval of the GMP for the Project, and is anticipated to be 11 months.

3. STAGE 1 PRE-CONSTRUCTION PHASE SERVICES FOR PROJECT

Stage 1 of the project shall be preconstruction services, as defined in Education Code section 17400(b)(4), to include the services generally described below in **Attachment 6**, Preconstruction Stage Services including but not limited to design/constructability and coordination review, value engineering, BIM coordination, detailed cost estimating, including variables and options in order to meet District’s budget, including variables and options in order to meet District’s EBE goals, development of different trades scope of work, and bidding and preparation of the Total Guaranteed Maximum Price (GMP) and lease payment schedule.

Commencement or completion of the Stage 1, Preconstruction Services, does not obligate the District to proceed with Stage 2, Construction and Post-Construction Services, with the selected LLB Entity. The approximate duration for the design phase is 3 months, followed by a 7 month period for DSA and City of San Diego Approvals. The Scope of Work is anticipated to include the following:

- a. Input to and review of design and construction documents, constructability review – not code level plan checks - for clarity, consistency, coordination, schedule, phasing, budget- (one formal Constructability report for each increment expected after DSA submission). Back-checks to be performed once design team has addressed review comments and prior to DSA approval for the different increments. The LLB Entity will work in a collaborative manner during the design process with the district staff, the Architect and the CM, as applicable. The LLB Entity should provide input on construction methodology and detailing based on the goals and objectives of the design to incorporate the strengths of their team.
- b. Undertake value engineering analysis and prepare report with recommendations to the District to maintain established construction budget.
- c. Perform detailed estimates at each design phase milestone using the District's Unifomat Cost Estimating template (to be provided by Project Manager in Excel to awarded Contractor.
- d. Attend regular meetings biweekly with the Design Team, and District Representatives.
- e. BIM Coordination.
- f. Assist in developing the construction phasing and sequencing plan of the project. Per the current plan (see sheet G-006 in the Design Development set), Stage 2, Phase 1 of the project includes remodeling the existing administrative spaces within the original Administration Building 3. Also included in the first Phase of construction is the addition of a window and a moveable wall in the Library Building 7; demolition of existing buildings 4 & 5; and the addition of new (leased) portable buildings to replace 5 classrooms and bathrooms. Please note building demolition cannot commence until the end of the 2022-2023 school year (June 2023). We request input on alternate viable project construction sequence/phasing strategies for Phases I through IV of the project that could potentially benefit the overall project schedule and cost.
- g. Provide a detailed Construction CPM schedule that identifies the critical path within the Construction Phase.
- h. Develop Scopes of Work for the different trade contractors and advertise for bids to obtain a minimum of 3 bids for each trade package. The GMP shall be developed through a public competitive sub-bid selection process. A minimum of three bids is expected for each trade. If the LLB Entity plans to self-perform any work, LLB Entity must submit a sealed bid directly to the District a minimum of 48 hours in advance of the bid due date for the subcontractors. LLB Entity will provide the District with a copy of their bid advertisement and subsequent addenda. Entity will be required to submit a detailed estimate for any work less than ½ of 1 percent of the construction project. Generally speaking, preparation of the GMP will require a minimum of nine weeks, broken down as follows:

One week for preparation of initial GMP by LLB Entity.

One week for review of GMP by District.
 One week for District and LLB Entity to further clarify issues with Design Team and review proposed Value Engineering ideas.
 One week for LLB Entity to make revisions and submit final GMP and associated supporting documents for Board approval.

Please identify what trades you plan to include for this phase (by Stage and discuss it in the approach section. Any costs associated with subcontractor input will be included in the LLB Entity's Preconstruction Phase cost. The District expects the LLB Entity to seek competitive bids and will not be obligated to use any of the subcontractors engaged during the Preconstruction Phase during the Construction Phase, which subcontractor(s) must be identified in the Proposal and used during any Construction Phase.
- j. Develop the proposed GMP and proposed lease payment schedule. The GMP proposal shall include the written rationale for the price and objectively verifiable documentation of the costs to perform the services under the Facilities Lease, including documentation of the costs to perform any subcontract work reserved to a designated subcontractor in the proposal.

ATTACHMENT NO. 3**DESIGNATED DVBE/SDVOB PARTICIPATION DOCUMENTATION
AND
DESIGNATED SUBCONTRACTORS LIST****DISABLED VETERAN BUSINESS ENTERPRISE ("DVBE")
PARTICIPATION PROGRAM OVERVIEW AND RESOURCES**

1. **DVBE Participation Program Policy.** The District is committed to achieving the administratively established Participation Requirement for Disabled Veteran Business Enterprises ("DVBEs") in accordance with Resolution In Support of Service Disabled Veteran-Owned Businesses (SDVOB) and Disabled Veteran Business Enterprises (DVBE) approved on May 10, 2011 by the Board of Education Resolution. Through the DVBE participation program, the District encourages contractors to ensure maximum opportunities for the participation of DVBE's in the Work of the Contract. The District's commitment to the achievement of DVBE Participation Requirement for the Work of the Contract shall not, however, result in the District's discrimination in the award of the Contract on the basis of ethnic group identification, ancestry, religion, age, sex, race, color, or physical or mental disability.

Contractor participation is mandatory for all construction jobs with the District.

Information regarding the DVBE participation program, including a listing of DVBE certified businesses, is available on the internet at the State of California Department of General Services website at: <https://caleprocure.ca.gov/pages/sbdvbe-index.aspx>.

2. **Definitions.**

- 2.1 **Broker:** A certified DVBE contractor that does not have title, possession, control, and risk of loss of materials, supplies, services or equipment provided, unless one or more of the disabled veteran owners has at least 51-percent (51%) ownership of the quantity and value of the materials, supplies and equipment provided [Military and Veterans Code (MVC) Section 999.2(b)].
- 2.2 **Commercially Useful Function (CUF):** A "commercially useful function" (CUF) provides services or goods that contribute to the fulfillment of the contract requirements. It is not a CUF if the DVBE's role is limited to that of an extra participant in a transaction, contract or project through which funds are passed in order to obtain the appearance of DVBE participation. A CUF is a person or entity doing all of the following:
- a. is responsible for the execution of a distinct element of the work of the contract;
 - b. carries out the obligation by actually performing, managing or supervising the work involved;
 - c. performs work that is normal for its business services and functions; and
 - d. is not further subcontracting a portion of the work that is greater than that expected to be subcontracted by normal industry standards.
- 2.3 **Disabled Veteran:** A "Disabled Veteran" means a veteran of the military, naval, or air service of the United States with at least ten percent (10%) service-connected disability who is a resident of the State of California.
- 2.4 **Disabled Veteran Business Enterprise;** 51% owned by one or more disabled veterans, management and daily operations are controlled by one or more disabled veterans but need not be those who own the business; and home office located in the United States which is not a branch or subsidiary of a foreign corporation. See California Military & Veterans Code, §999(b)(7)(A).

District accepts, both, the DGS Disabled Veteran Business Enterprise (DVBE) certification and the Department of Veterans Affairs Center for Veterans Enterprise (CVE) Service Disabled Veteran-Owned Business Enterprises (SDVOB) verification with CVE letter.

- 2.5 **Front:** A Subcontractor providing artificial or incidental participation to meet the objective of a Contract (e.g., DVBE participation requirement), or a provider who does not own the equipment they are providing, but going to an outside source.
- 2.6 **Pass-through:** A supplier providing access to materials and supplies for which they are not specifically certified/verified. Also see "Front" above.

3. Participation Requirement.

- 3.1 **Participation Requirement Defined.** The term "Participation Requirement" is a numerically expressed condition of DVBE participation in performing the Work of the Contract
- 3.2 **DVBE Participation.** The Proposal of a Contractor shall be deemed responsive only if the Contractor achieves or exceeds the DVBE Participation Requirement of three percent (3%) of total amount of Contractor's GMP. The Contractor's achievement of the Participation Requirement will not by itself render the Proposal of such contractor to be qualified; in accordance with the information for Contractor, the entirety of the Proposal must be the qualified Contractor whose responses conform to the RFP.

DVBE's need to have a current and valid certification from the DGS for the business type and classification as listed on the bid documents. SDVOB's need to have a current and valid verification letter from the CVE relevant to the bid (e.g., NAICS Code); self-certification will not be accepted. DVBE eligibility is a two-year period; SDVOB eligibility is a three-year period. Eligibility must be current at time of DVBE bid and contract award.
- 3.3 **Exclusions:** The District expressly prohibits pass-throughs and fronts.
