

# **Reschedule-Pre-Job Conference Meeting for the Solar Group F CC25-0800-50-00-00, CC25-1008-50-00-00 Group F1, CC25-1009-50-00-00 Group F2 and CC25-1010-50-00-00 Group F3-Straightline Construction - Transcript**

**SPECIALIST: IVORY ANDERSON**

**DATE: 05/15/2025**

May 15, 2025, 9:01PM

● **Ethridge Todd** started transcription

**Anderson Ivory** 0:03

On the call with us is director Harris, Director. I'm the day-to-day person director Harris becomes involved when we have higher echelon issues such as interpretations of the agreement. Also on the call with us is my PSA colleagues. They'll be helping me run the meeting today to.

Today's meeting is a required meeting, according to section 8.5 and 16.1 of the PSA. One of the purposes of today's meeting is.

To it's an opportunity for the unions and the contractors to come together and discuss manpower in scopes of work.

Keep in mind that the assignment of work making a work assignment belongs to the contractor that's completing the work.

For example, if you were a subcontractor and you hired a tiered contractor, that tiered contractor needs to make.

Their own work assignment. Once the work assignment has been announced, there are only two ways of altering a work assignment.

One is the two affected unions and the contractors come together and alter it or through the plan or through the plan for jurisdictional Askew.

**Antonio Sanchez** 1:18

OK.

No, that's good. Thank you. Next.

**Anderson Ivory** 1:24

Someone in the background has their mic open.

Can you go ahead and mute yourself for now?

Oh, how was you, Dave?

So either through the the involved parties coming together or through the plan for jurisdictional dispute, which is handled away from the project.

Today we have 3 contracts.

This is solar group F3 contracts, which is Carson.

Oak Park and the supply Center Oak Park and supply.

Center are are identical, so we're hoping to only have to show one page, but I have all three at the ready. Today's meeting is recorded.

We ask that you identify yourself who you're with in the chat when you have a question, we ask that you raise your hand and unmute yourself.

We ask that you record your question in the chat so that it's memorialized.

All contractors must submit a signed letter of assent.

And a work assignment before they can start work on a project.

Where where a matter is addressed in the PSA, you follow the PSA, if there's a matter that's addressed.

So if the matter is addressed, then the PSA.

Follow the guidelines of the PSA.

Always keep it in mind too, that in the hierarchy, see it's the state of California, the PSA and then the schedule.

Way and that's that's how you follow issues.

You'd go to the schedule a a lot of times for issues such as show up, pay the show up. Pay is not listed in the PSA, so you got to go to the individual schedule way to find out finances for that.

All non union contractors are required to have their core employees referred back to the project.

A core employee is described as someone that's been on your payroll.

Out of the last 180 days, they possess the skill set or the certification for the work being performed and that they live somewhere in the county of San Diego, San Diego Unified School District has a local higher goal.

What that goal looks like is it 100% of the workforce lives somewhere in the county, 70% live in the school district, ZIP code and 35 live in the target, 11 targeted ZIP

code.

How the contractor help?

Us to effectuate or meet that goal is that your employees live somewhere in the county, but also if you have a scope of work which requires more than one worker at a time, or the operation of more than one piece of equipment, then you're likely to.

Have a composite crew and when you make the request for dispatch from the Union, not only are you gonna list if you need a journeyman or or.

Apprentice and the skills.

But also we ask that you ask for someone who lives in the school district, ZIP code that you're working at.

That's how you help us with our goal.

I briefly mentioned a composite crew, non union contractors, again with more than one person working at a time or operating more than one piece of equipment at the same time will likely have a composite crew.

An example of a composite crew is if there were six workers positions 1/3 and five.

I would belong to the contractor position 246 and beyond would belong to the dispatching Union and if you were to reduce your crew it would go in reverse order so that the core employee in position one would be the last person on the project a time.

Request for dispatch or red or registration of the core employees is at least.

At least 48 hours less weekends and holidays from the time you need the dispatch.

Keep in mind that neither the contractor nor his employees are required to join a union to work under the PSA.

They have simply have to follow the guidelines of the PSA in a schedule way. They're working under because this is the prevailing wages that are paid on this project are found on the Di Rs website and it's based on the 1st bid advertisement date. That's where you're going.

To find the required wages. Because this is a part private agreement.

With the prevailing wages, you'll pay the base rate on the check and you'll separate the fringe benefit that be sent to the applicable Union trust fund at a later date.

With that, and before I turn it over to straight line director Harris, would you like to add anything?

**Harris III George** 6:19

No, you covered everything. Ivory. Thanks.

**Anderson Ivory** 6:21

All right.

Thank you, George.

With that, I'm going to turn the meeting over to straight line.

We're going to start at F1 group F1, which is Carson. We're going to 1st talk about the overall scopes of work there and if straight line will be self performing and then we'll go through the list of sub contractors and again the the desire is that.

The once the the assignment has been made and accepted.

That it's final.

So with that, go ahead.

Dave.

**David Williams** 6:56

Hey everybody.

So we're doing this is solar group F obviously.

They broke it out into all three schools, have a different contract.

Carson is F1.

It's a rooftop mount.

Similar to Group C.

So it's a standard solar new roof, new solar project.

Straight line is self performing.

We're signing the laborers all Miscellaneous soft demo clean up tent fencing, concrete shovel work.

Uh, the hard demo, or besides the labor helping the operators will be assigned for the equipment.

That we use.

And then.

Carson does have a little bit.

It has a little bit of concrete sidewalk paving that we're gonna the finish, we're gonna assign to the cement Masons set up and finish.

Then carpentry. There is a little bit of carpentry.  
It's blocking basically on the roof and we're assigning that to local 619.

**Anderson Ivory** 8:09

Thank you, Dave, are there?  
Are there any questions or comments?  
If so, raise your hand.  
I see no raised hands.  
Is there anything in the chat?  
Caesar, go ahead and unmute yourself, please.

**Cesar Carrasco** 8:28

Yeah, this is a look at 12.  
I'm on my cell phone. I apologize.  
It's loud.  
Did you say you were citing the operators, the equipment?

**David Williams** 8:37

Yes.

**Cesar Carrasco** 8:38

OK10 four local 12 accepts the assignment. Thank you.

**Anderson Ivory** 8:42

Thank you, Cesar.  
Cruise. Go ahead and unmute yourself, please.  
Cruz, can you hear me?

**Cruz Ramos CML 500/744** 8:54

Yeah. Can you hear me?

**Harris III George** 8:55

Oh, go ahead. Go ahead. Go ahead.

**Cruz Ramos CML 500/744** 8:55

Sorry guys.

There you go.

Yeah, this is Cruz with the cement Masons. We accept all work assignments from straight line.

Thanks Dave.

**Anderson Ivory** 9:04

Thank you, Chris.

Allen, go ahead and unmute yourself, please.

Chris, are you there? Chris Allen?

**Ethridge Todd** 9:17

Like he's saying he's having mic issues in the chat, but he's just saying that the carpenters accept the miscellaneous frame.

**Anderson Ivory** 9:25

Thank you.

I see.

Can you guys hear me?

**Harris III George** 9:32

Yes.

**Anderson Ivory** 9:33

OK, for something just got out, I saw one more hand go up.

I'm not sure who that was.

**Harris III George** 9:40

I don't.

I don't see any hands up.

**Anderson Ivory** 9:42

I thought I saw Jesse. Something, somebody.

**Harris III George** 9:46

Well, in the chat he just put in that he's with the Jesus Caro with the cement nations.  
He just put his name in the chat, but I don't see anyone's hands raised.

**Anderson Ivory** 9:59

OK.

Excellent. With that, let's go to our next subcontractor. Is there anyone on the call from all time Fence company?

If so, could you please raise your hand and unmute yourself?

**Cruz Maria** 10:13

And Ivy, just real quick.

Local 89 also accepted.

**Anderson Ivory** 10:19

Excellent. Thank you. Thank you, Maria.

All right.

Anyone from all tank fence?

If not, Dave, can you go ahead and speak to the scope report?

**David Williams** 10:30

They'll be the doing missile.

No, that's you have mine ivory.

**Anderson Ivory** 10:36

Say again?

**David Williams** 10:36

Yeah, mine.

**Anderson Ivory** 10:40

There we go.

OK.

**David Williams** 10:43

They're going to remove and replace chain link fabric with one inch.  
No climb on existing framing, and they're going to sign that to local 89.

**Anderson Ivory** 10:55

I don't see 89 on here.  
I I see 619.

**David Williams** 11:00

Oh, he.  
Oh, he's gonna sign that. I'm sorry.  
I apologize.  
He's gonna sign that to 619.

**Anderson Ivory** 11:07

OK. Are there any questions or comments?  
Sergio, go ahead and unmute yourself.

**Sergio Machado** 11:16

Yes, locally I will put a claim to the fencing.

**Anderson Ivory** 11:21

Thank you.

**Sergio Machado** 11:22

Standing fence.  
Thank you.

**Anderson Ivory** 11:24

Any other questions or comments?

**Cruz Maria** 11:27

In the chat, local 619 explores for all time fence.

**Anderson Ivory** 11:32

OK.

Thank you.

I see no other hands, so let's move on to our next contractor.

Is there anyone on the call from Palomar Solar?

If so, could you raise your hand and unmute yourself?

I see no hands.

Dave, can you go ahead and read their scope?

**David Williams** 11:51

Yeah, they're gonna be doing the electrical scope and the PV solar installation.

They're assigning it to electrical workers local 569.

**Anderson Ivory** 12:02

Thank you.

Any questions or comments?

Freddie, go ahead and unmute yourself.

**Fredi F. local 5 insulators and Firestoppers** 12:09

Thanks, Aubrey.

Earlier you guys came in. I kidding.

I mean my my mic, but it's OK.

For the electrical portion of it, there's any fire stopping involved in that scope of work.

**David Williams** 12:20

No.

**Fredi F. local 5 insulators and Firestoppers** 12:21

You guys not gonna come across any fire rated walls anything like that?

**David Williams** 12:25

It's all roof mount.

**Fredi F. local 5 insulators and Firestoppers** 12:26

OK, sounds good.

Thank you so much.

Thanks aubri.

**Anderson Ivory** 12:30

Thank you, Freddie. Evan McRae.

Glad I'm mute yourself, please.

**Evan McCray** 12:35

I think my question was answered, but there's gonna be no horizontal directional drilling with any of that installation is there?

**David Williams** 12:41

No.

**Evan McCray** 12:42

OK.

Thank you very much.

**Anderson Ivory** 12:45

Uh.

Go ahead and OK. Any other? Evan, do you have another question?

**Evan McCray** 12:54

No, I was trying to take it off, sorry.

**Anderson Ivory** 12:56

Not a problem.

Any other questions or comments?

**Cruz Maria** 12:59

In the chat, IBW accepts the accepts the assignment.

**Anderson Ivory** 13:04

Thank you, Jennifer.

With that, let's move on to our next set of contractors, rap engineering, and then

we'll get to their sub tier.

Is there anyone on the call from RAP?

If so, raise your hand and mute yourself.

I see no hands.

Dave, can you go ahead and speak to raps work?

 **David Williams** 13:27

Yeah, they're gonna be.

They're gonna be doing trench patching for asphalt paving.

And they are assigning that to local 89 for the labor work and local 12 for the operating work.

 **Anderson Ivory** 13:42

Thank you, Cesar.

Go ahead and unmute yourself.

 **Cesar Carrasco** 13:46

The Caesar local 12.

We accept the assignment. Thank you.

 **Anderson Ivory** 13:50

Thank you.

Any other questions or comments?

I see no hands.

 **Cruz Maria** 13:58

Local groups in the chat.

 **Anderson Ivory** 14:01

Who's in the chat?

 **Cruz Maria** 14:03

Local 89 does accept the assignment in the chat.

 **Anderson Ivory** 14:05

Excellent. Thank you, Maria.

Any other questions or comments?

If not, let's move on to rat raps tiered contractor amberat.

Is there anyone on the call from Ambritt?

If not, Dave, can you go ahead and read it?

**David Williams** 14:23

Yeah, they're going to be doing the patching back of line striping and pavement markings, and they are signing it to local 1184.

**Anderson Ivory** 14:33

Thank you.

Any questions or comments?

Go ahead, Edmond.

**Evan McCray** 14:41

We'll accept the assignment of.

We have 1184.

Thank you.

**Anderson Ivory** 14:47

Thank you.

Let me ask this is oh, no, we've got one more.

Let's move on to our next subcontractor. Sylvester roofing. Is there anyone on the call from Sylvester?

If so, please raise your hand.

I see no raised hands.

Oh, I'm sorry, Francis. So go ahead and unmute yourself, please.

**Francisco Javier Morales-Ruiz** 15:09

Hello, this Francisco Morales.

I'm the project manager for Sylvester Roofing and we'll be doing the demo work of the existing roof system and installing a new single by Roof system.

We'll be using local 45.

**Anderson Ivory** 15:23

Thank you.

Are there any questions or comments?

Chris Bettencourt, go ahead.

I'm I. Well, I guess it was.

Go ahead, Chris.

Chris Benoit, I'm mute, so.

**Chris Betancourt** 15:36

I think every hey, Dave, you know, if this roof is hot or not or Francisco.

**David Williams** 15:42

It is not on.

**Chris Betancourt** 15:43

No. OK.

Thank you so much.

**Anderson Ivory** 15:47

Thank you, Chris Cesar Karasco, go ahead and unmute yourself, please.

**Cesar Carrasco** 15:52

Yeah, it seems to look a 12.

How will you guys be loading up your roofing up there? You guys using a crane or just?

Distributed to unload it up there for you guys.

**Francisco Javier Morales-Ruiz** 16:02

We'll be using our own forklift.

**Cesar Carrasco** 16:06

Copy that.

Thank you.

**Anderson Ivory** 16:09

OK.

Chris Allen, go ahead and unmute yourself.

**Chris Allen** 16:13

All right, I got my mic back.

Question for Dave with Straight line, who's gonna be cutting the plywood?

Substrate is it is it?

**David Williams** 16:25

We're not cutting.

**Chris Allen** 16:26

Is it under Sylvester?

Because I could have sworn it was the the carpentry was assigned to the carpenters by you guys.

**David Williams** 16:34

There, there may be some blocking involved.

I don't believe there's any plywood replacement.

**Chris Allen** 16:41

It says demo existing oh down. OK.

Never mind.

**Francisco Javier Morales-Ruiz** 16:45

Yeah, it's a concrete substrate. Sorry.

**Chris Allen** 16:45

Thank you very much.

Got it.

Thank you.

**Anderson Ivory** 16:49

OK. Is there someone else with their hand up?  
I I don't see it.

**Harris III George** 16:55

Francis Francisco.  
Javier Morales Ruiz.

**Adrian Lopez-Rojas** 16:59

Hello.

**Anderson Ivory** 17:00

Oh, he he was a contractor.

**Harris III George** 17:02

OK.

**Adrian Lopez-Rojas** 17:03

Hello, can you hear me?

**Anderson Ivory** 17:04

OK. Yes.

**Harris III George** 17:05

Yes.

**Adrian Lopez-Rojas** 17:06

Yeah. Adrian Lopez with local 45, who accepted assignment word for Sebastian Roofing.

**Anderson Ivory** 17:13

Thank you, Adrian.

**Adrian Lopez-Rojas** 17:14

Thank you.

**Anderson Ivory** 17:15

With that, with that, that's is that another hand?

**Harris III George** 17:20

No.

**Anderson Ivory** 17:20

OK. With that, we've gone through our list of Subs. Are there any contractors on the line who did not get an opportunity to speak?

If so, raise your hand.

I see no raised hands.

So now we're gonna go to F2, which is Oak Park, and if I'm understanding correctly, F2 and F3 are identical.

But I'll let straight line tell us about that.

**David Williams** 17:49

Yeah, that is correct.

It's the same Subs for each.

Oak Park and Supply center.

So if we go over one, it'll be for both.

**Anderson Ivory** 17:59

OK.

Alright.

**David Williams** 18:03

This these two are going to be car Porter Ray mounts.

So we it'll be similar to Group B and Group D We are providing some of the self performing some of the work we're going to assign the miscellaneous soft. I'm sorry, soft demo, cleaning tent, fence, concrete shovel work to local 89.

**Anderson Ivory** 18:29

Thank you.

 **David Williams** 18:30

The operators will do all the equipment.

And there is some, oh, actually on this one. There is no concrete work.

So there's there's no assignment to.

There should be no assignment to the cement Masons.

 **Anderson Ivory** 18:43

OK.

Thank you.

 **David Williams** 18:45

On supply center, we are doing some concrete replacement and will assign the form and finish to.

The cement Masons.

 **Anderson Ivory** 18:54

OK.

So on F3 there'll be 1/3 assignment.

 **David Williams** 18:59

Correct.

 **Anderson Ivory** 19:11

That Caesar go ahead and unmute yourself, please.

 **Cesar Carrasco** 19:17

Caesar's locker 12. We accept the assignment. Thank you.

 **Anderson Ivory** 19:21

Thank you.

Any other questions or comments?

 **Cruz Maria** 19:25

We have local 89 in the chat. Accepting the assignment for Oak Park.

**Anderson Ivory** 19:31

Thank you.

David Johnson, go ahead and mute yourself, please.

**David Johnson** 19:37

How are you doing?

I got a question.

I seen tikar.

You went over to stuff for tiger or no.

**Anderson Ivory** 19:42

Not yet.

**David Johnson** 19:43

OK.

Got it.

**Anderson Ivory** 19:44

They're they're coming up in awhile.

**David Johnson** 19:46

OK.

Thank you.

**Anderson Ivory** 19:47

Not a problem.

We're gonna move on to our first subcontractor, which is Palomar Solar.

Dave, you want to talk about the assignments?

**David Williams** 19:58

Yeah, they'll be doing the electrical and the solar installation and they're assigning it to local 569.

**Anderson Ivory** 20:10

The same on both.

**David Williams** 20:12

Correct.

**Anderson Ivory** 20:14

OK.

**Cruz Maria** 20:17

Local 560 that's in the chat.

**Anderson Ivory** 20:17

Are there any?

Thank you.

All right.

Well, I'm just gonna stay on page two unless something changes.

So with that, are there any other questions or comments?

With that, let's move on to our next.

Chris Betancourt go ahead and unmute yourself.

**Chris Betancourt** 20:39

Is Palomar solar gonna do any excavation?

**David Williams** 20:44

Any excavation will be done by straight line.

**Chris Betancourt** 20:47

OK.

Thank you.

**Anderson Ivory** 20:49

Thank you, Chris. Freddie Flores.

Go ahead and unmute yourself.

 **Fredi F. local 5 insulators and Firestoppers** 20:53

Thanks, Aubrey.

And there's any fires stopping involving the scope of work of the electrician side of it.

 **David Williams** 20:59

No, no, it's all parking lot.

 **Fredi F. local 5 insulators and Firestoppers** 21:02

Thank you, Sir. Appreciate it.

Thanks. Thanks Aubry.

 **Anderson Ivory** 21:05

Thank you, Freddie Cruz.

Go ahead and mute yourself.

 **Cruz Ramos CML 500/744** 21:12

Hey, that's funny.

Hey, I we accept that work assignments. I put it on the chat same as the other one for the supply Center for straight line for that project. Thank you.

 **Anderson Ivory** 21:21

Thank you.

Much appreciate it.

Any other questions or comments?

Let's move on to rap.

Dave, can you talk about rap scope work, please?

 **David Williams** 21:34

Yeah, they are. A rap will be doing asphalt work and they are signing it to local 89 and local 12.

 **Anderson Ivory** 21:43

Thank you, Cesar.

Go ahead and unmute yourself.

**Cesar Carrasco** 21:48

Caesar's local 12.

We accept the assignment.

Thank you.

**Anderson Ivory** 21:51

Thank you, Cesar. Any other anyone else?

I see no other hands or or comments.

Let's move on.

**Cruz Maria** 22:06

Local 89.

**Anderson Ivory** 22:09

Thank you.

Let's move on to ambrett.

RAPS tiered contractor.

Go ahead. Go ahead, Dave.

**David Williams** 22:16

I hope I'm sorry.

They'll be doing the pavement marking and line striping and they are assigning it to local 1184.

**Anderson Ivory** 22:26

Thank you.

Any questions or comments?

Go ahead, Evan, unmute yourself.

**Evan McCray** 22:34

Kevin McCarthy, local 1184.

We accept the assignment.

Thank you.

**Anderson Ivory** 22:40

All right. Thank. Thank you, Evan.

With that, let's move on to the type.

Yeah. Let's move on to the Tiger group.

Is there anyone on the call from Tykard?

If so, please raise your hand and unmute yourself.

I see no raised hands, no Nathan.

Dave, can you go ahead and speak to Tygard and Tygard's work assignment?

**David Williams** 23:08

OK, they are going to be the doing the steel fab and installation.

They are assigning it to local 89 to ironworkers.

Local 229 and cement Masons Local 500.

The.

**Anderson Ivory** 23:27

Yeah.

**David Williams** 23:29

The racking crew will be assigned to local 89 and ironworkers 229.

**Anderson Ivory** 23:36

Thank you.

Go ahead, David Johnson.

Unmute yourself.

**David Johnson** 23:42

Unaccept working assignments from our signatory contractor.

Thank you.

**Anderson Ivory** 23:48

Thank you.

Anyone else?

Let's go with Sergio.

Sergio, go ahead and unmute yourself.

Sergio from 89.

Go ahead and mute yourself if you can.

**Harris III George** 24:08

Doesn't look like he has his hand raised ivory.

**Anderson Ivory** 24:10

OK, must've put it down, Chris.

**Harris III George** 24:12

Yeah, we have Jennifer. And then Chris Allen and then Cruz Ramos all have their hand up.

**Anderson Ivory** 24:14

That.

OK.

Go ahead, Jennifer.

**Jennifer Wilson** 24:23

Yeah. This is Jennifer 569.

I'm curious.

What does carport racking insulation mean?

**David Williams** 24:31

When they so they're going to build.

So, Jennifer, I was gonna talk to you offline.

They're they're gonna build the arrays. You know how they do on the ground.

Their part what they're saying there is when they lift it from the ground to the to the columns.

Straight on group F, Palomar is going to be doing the panelizing of those.

Cassettes and on group B&D.

We were gonna have tenko do it, but we're gonna hire buzzer electric to do that. So

I'm gonna soon as I formalize that, I'm gonna update both B&D, but Tygart is not going to touch those panels.

**JW** **Jennifer Wilson** 25:16

OK.

So when it when they say carport racking doesn't mean that they're putting the panels on on the actual carport.

**DW** **David Williams** 25:22

No, that.

No, that's what I just talked about.

**JW** **Jennifer Wilson** 25:25

Perfect.

**DW** **David Williams** 25:26

Palomar is gonna do it on Cnf and straight line is gonna hire a booster to do it on B&D.

**JW** **Jennifer Wilson** 25:32

Sounds good.

Thank you.

 **Anderson Ivory** 25:36

Thank you, Jennifer.

Chris Allen, go ahead and unmute yourself.

**CA** **Chris Allen** 25:40

Yeah. Question for Dave. Since Tyker doesn't online.

Are these structural caissons on the bottom and then the carport or the the structural members bolt on to them with anchor bolts?

**DW** **David Williams** 25:56

I'd have to look the plans they have both on these groups.

I don't know which group what Group 7 has to be honest with you.

**CA** **Chris Allen** 26:04

So who will be installing the anchor bolts?

Because that's typically a Carpenter that sets the embedded items.

 **David Williams** 26:11

Well, that's a tiger question. I don't have an answer to. So if you have a a issue with it then just let me know offline and I can address it with tiger.

 **Chris Allen** 26:21

OK, for the mini notes, the carpenters are gonna claim all setting of embedded items to final elevation, including anchor bolts.

**Anderson Ivory** 26:31

That listed Chris.

**Chris Allen** 26:32

It's not on there.

An anchor bolt is a an anchor bolt is a section of the case on that is embedded in concrete and secured to the concrete formwork, and then after it is stripped, then the then the structural i-beam, so to speak, that 229 will be erecting B.

**Anderson Ivory** 26:35

OK.

**Chris Allen** 26:51

To it.

**Anderson Ivory** 26:52

Understood.

I know Dave is going to get in contact with Tiger, but Chris, you have the same ability to call Tiger and find out if if they need to revise their their work assignment.

**Chris Allen** 27:06

They're a hard contractor to get a hold of ivory.

I'm gonna be leaning on Dave to help me.

**Anderson Ivory** 27:09

100.

**Chris Allen** 27:15

A middleman to get to get, yeah.

**Anderson Ivory** 27:15

Help the process.

Understood. Understood.

**Chris Allen** 27:19

I appreciate that, Dave, if you can help me out.

**David Williams** 27:23

Yeah, I'm just looking now to see what we're doing here.

Yeah, it looks like we're stabbing them. So I don't think there are gonna be.

I'm looking at the supply center.

I'll look into that.

I don't know about Oak Park, but I'll look into that and if you could shoot me an e-mail 'cause my memory isn't as good as it used to be.

**Anderson Ivory** 27:51

Chris Allen, that was for you.

All right, let's.

**Chris Allen** 27:56

Thank you, Dave.

Yeah, 'cause it says installation of carport foundations and a pre assembled forming frames so.

**David Williams** 28:02

Well, the pre? Yeah, that's that cassette that they use.

That's something different.

That's the actual they call it a cassette.

That's what holds the the solar panels and it bolts onto their columns.  
So that's different, but I I'll get I'll get.

 **Chris Allen** 28:18

Well.

If you Scroll down a little bit says it right there in their in their pre drop form, right?

 **Anderson Ivory** 28:25

We're about.

Where Chris?

Where were we?

 **Chris Allen** 28:30

Scroll down a little bit right there. Oh.

Next one up.

Yep, the foundation cruise has installation carport foundations in APIs umm forming frames.

So I'm just wondering what the forming frames are.

 **David Williams** 28:46

OK.

Well, I will find out.

 **Chris Allen** 28:49

Awesome. The the Carpenters are claiming all concrete formwork for the structural caissons of these of these structures, and I'll get with you after Dave.

 **Anderson Ivory** 28:51

So.

So.

So Chris, just for my understanding that is an unlist.

Well, kind of unlisted scope of work, right?

 **Chris Allen** 29:06

It absolutely is, because the laborers are only pouring the concrete foundations.

The Masons are only sack and patchy, and finishing concrete and the ironworkers are doing the structural columns and in the pedestals.

So if there's any kind of concrete formwork, I expect to see the carpenters in it as we're the only trade that does structural concrete formwork for foundations and caissons.

**Anderson Ivory** 29:26

Understood. Thank you.  
With that.

**Chris Allen** 29:29

I'll get with you after Dave.  
Thank you.

**David Williams** 29:31

OK.

**Anderson Ivory** 29:32

Bruce Ramos, go ahead and unmute yourself, please.

**Cruz Ramos CML 500/744** 29:38

Oh my.  
Accepted it on the chat, I think you.

**Anderson Ivory** 29:41

Thank you.  
Could you go ahead and lower your hand then?

**Cruz Ramos CML 500/744** 29:46

What's that?

**Anderson Ivory** 29:47

Can you lower your hand please?  
OK, I see no other.

**Cruz Maria** 29:52

And then also also in the chat local local 89 accepts from signatory Tykurt as well.

**Anderson Ivory** 30:00

Excellent. Got you. OK.

I see no other hands.

So with that, let's move on to Tykert's first tiered contractor F3 and associates.

Is there anyone on the call from F3? If so, please raise your hand unmute yourself.

Oh, I'm sorry.

They haven't even started their work, so let's move on to the next tiered contractor. Is there anyone on the call from ground penetrating radar system?

If so, go ahead and raise your hand and I'm mute yourself.

I see no raised hand.

Dave, can you go ahead and speak to the ground penetrating radar scope of work?

**David Williams** 30:42

Yeah, they're gonna be doing subsurface imaging and they're assigning it to local 1184.

**Anderson Ivory** 30:49

Thank you.

Chris Bettencourt, go ahead and unmute yourself.

**Chris Betancourt** 30:53

Hey, Dave, is this in connection with horizontal directional drilling for this for GPRS?

**David Williams** 31:04

Not that I know of.

**Chris Betancourt** 31:07

So there there's no horizontal directional drilling.

**David Williams** 31:09

No, no.

 **Chris Betancourt** 31:11

OK.

 **David Williams** 31:11

You mean no for the utilities, you mean?

 **Chris Betancourt** 31:15

Yeah.

 **David Williams** 31:16

No, no, this is just for this is this is a tiger tiered sub.

So this is just to do the columns.

 **Chris Betancourt** 31:23

Right to to make sure there's no utilities where they're gonna drill the holes for the columns, correct.

 **David Williams** 31:28

Right.

 **Chris Betancourt** 31:29

OK.

All right, perfect.

Yeah, 'cause that does fall under Labor's Local 9 scope of work for locating that's not in connection with HDD.

I'll follow the process.

Do what I gotta do on my side. Thank you.

**Anderson Ivory** 31:41

Chris, are you challenging this assignment?

 **Chris Betancourt** 31:43

I'll get with the business manager locally and figure this out.

**Anderson Ivory** 31:47

OK.

Thank you.

Evan, go ahead and unmute yourself.

**Evan McCray** 31:55

Thanks Ivy.

We'll accept the assignment behalf. The laborers. Thank you.

**Anderson Ivory** 32:00

Thank you.

Any other questions or comments?

I see.

I see nothing.

Let's move on to the next tiered contractor, which is Allevius Foundation and drilling.

Is there anyone on the call from Alevis?

If so, please raise your hand.

I see no hands.

Dave, can you go ahead and speak to the scope of work?

**David Williams** 32:27

Yeah. Leave us will be actually doing the drilling and they are signing at the local 12.

**Anderson Ivory** 32:33

Thank you.

Questions or comments?

Caesar, go ahead, unmute yourself.

**Cesar Carrasco** 32:40

Caesar local 12.

We accept the assignment.

Thank you.

**Anderson Ivory** 32:44

Thank you, Cesar.

Any other questions or comments, Chris Bettencourt.

 **Chris Betancourt** 32:50

F for Olivia's Foundation is is. Do you know if tygard or straight line is gonna support them with labor for any shovel or clean up?

 **David Williams** 33:02

I'm sure we will not on purpose, but I'm sure we will.

 **Chris Betancourt** 33:06

Yeah, because Olivia's a signature.

Also to the laborers. So usually if they don't provide the laborer, the general contractor, whoever subcontractor, that work will will perform the labor scope of work because they do have shovels and brooms there on that job site and just want to make sure.

 **Anderson Ivory** 33:22

Chris and you reach out to Olevis and find out if if they're going to alter their work assignment to open it up or add anything to their work assignment, please.

 **Chris Betancourt** 33:30

But they're just saying operating drill rig, right?

So there's they don't.

They didn't list any cleanup, so that's why I was asking if the general.

 **Anderson Ivory** 33:39

Oh.

 **Chris Betancourt** 33:39

Or was gonna self self perform the labor scope of work for that?

 **Anderson Ivory** 33:42

Understood.

 **David Williams** 33:44  
Well, Tiger, Tiger don't have laborers on site too.

 **Chris Betancourt** 33:47  
Is is that tacard sub Dave?

 **Anderson Ivory** 33:49  
Yes.

 **David Williams** 33:50  
Yeah, these are all tiger.

 **Chris Betancourt** 33:50  
OK, I'll I'll reach out to tiger to make sure to get that clarification. Most likely that that's the same way they do it all the time.

 **David Williams** 33:57  
Yeah, that's how they usually do it.

 **Chris Betancourt** 34:00  
All right, I'll reach out.

 **David Williams** 34:00  
But I see no that \*\*\*\*.

 **Anderson Ivory** 34:02  
So, Chris, all four of these are tied contractors are, are there any other questions or comments?

 **Chris Betancourt** 34:07  
Gotcha.

 **Anderson Ivory** 34:11  
So raise your hand.

I see none. Let's move on to.

Sunrise Bobcat is there anyone on the call from sunrise?

If so, raise your hand.

I see no hands.

Dave, can you go ahead and speak to the scope of work?

 **David Williams** 34:29

Yeah, they're going to haul off the spoils, and they're assigning it to local 12.

 **Anderson Ivory** 34:36

Thank you, Dave.

Caesar, go ahead and unmute yourself, please.

 **Cesar Carrasco** 34:43

Caesar local 12.

We accept the assignment.

Thank you.

 **Anderson Ivory** 34:48

Thank you, Cesar. With that.

Are there any contractors that are on the line?

Did not, did, did not get an opportunity to speak.

If so, raise your hand.

I don't see any Caesar.

I see your hands up.

Go ahead.

 **Cesar Carrasco** 35:09

Yeah. Question for Dave.

Are you guys gonna be using any kind of survey out there?

 **David Williams** 35:19

That's what F3 does.

 **Cesar Carrasco** 35:24

That's what F3 does. I didn't.

 **Anderson Ivory** 35:24

Who on F3?

Dave who?

Who on F3 is gonna do the survey?

 **David Williams** 35:31

F3 is the tiered sub for tikart.

They do.

I believe they do. Surveying.

 **Cesar Carrasco** 35:37

I don't.

I don't believe that is a true statement.

 **David Williams** 35:43

I can find out.

 **Cesar Carrasco** 35:43

But I can follow up on that and find out 'cause. I mean, it looks like you guys will be needing some survey out there to give you guys points for the center line of these.

Uh, these shafts, these holes that you guys are drilling.

 **David Williams** 35:52

Yeah, and Tygart has done their own.

They always do their own surveying and they always list that three.

So I'm I'm not 100% sure, but I'm pretty sure at three does survey.

 **Anderson Ivory** 36:03

Well, here we go.

F3.

Go ahead and read that day, please.

 **David Williams** 36:12  
Oh, you have it.

 **Anderson Ivory** 36:14  
Yeah.

 **David Williams** 36:14  
Oh, look at that survey.

 **Cesar Carrasco** 36:14  
Oh, there it is.

 **Anderson Ivory** 36:16  
I I went to the third page.  
We're on F3. I mean we're.  
Yeah, we're talking about F3.  
We're on page F3, so yeah.

 **David Williams** 36:24  
Yeah. So they they are the surveyor for Tiger.

 **Anderson Ivory** 36:28  
OK.

 **Cesar Carrasco** 36:28  
Copy that. I can see that now and locate accepts the assignment. Thank you.

 **Anderson Ivory** 36:33  
Dave, question for you. I believe on F2F3 hadn't submitted. Do you think they'll be doing the same work on Ed Oak Park as they're doing it at the supply center?

 **David Williams** 36:47  
Yet they will be.  
I'm not sure I've been asking Nathan all week to get them signed up.

**Anderson Ivory** 36:49

OK.

**David Williams** 36:52

I'm not sure what the problem is.

Part of it, to be honest with you, is the.

The confusion on the three jobs, some of the Subs are struggling more than the others.

So we'll try.

We'll try to get him squared away.

**Anderson Ivory** 37:07

Right. I was starting to realize that that they were probably thinking, hey, I've already submitted one set of.

That's what I was seeing early on where they they had completed one but not the other.

So with that, if you if we've got time, if you want to, we can walk through page three, but it's identical to page 2.

Let's let's go to questions 1st and then you tell me if we need to walk through page three or not.

Chris Bettencourt, go ahead and unmute yourself.

**Chris Betancourt** 37:41

Hey, Dave, this is Chris.

Local 9. You can have any traffic control with the trucks coming in and out of the the school or any of the schools.

**David Williams** 37:49

No.

**Chris Betancourt** 37:50

All right. Thanks.

**Anderson Ivory** 37:53

Any other questions or comments?

It only takes a second.

Let's look here at again. These assignments are identical to the ones we spoke to a moment ago on F2.

If someone sees something that's different, let me know.

With that, there was nothing contested.

So.

Just talked about F3. We talked about ground penetrating radar.

Olivis.

And sunrise bobcat.

OK. With that, we've gone through all three locations, all three contracts.

And.

And I we're we're finished here.

Dave, is there anything else you want to add?

**David Williams** 39:32

Nothing for me.

**Anderson Ivory** 39:34

Alright, director Harris, is there anything you want to add?

**Harris III George** 39:38

Nothing on my end.

**Anderson Ivory** 39:41

OK.

Other than that, one assignment through F3 to be updated, I think we're good to go. Unless.

Chris Allen, Chris Bettencourt, you guys have raised questions and unless something changes, I think we're finished here.

So with that, I want to thank you all for participating.

Enjoy the rest of your day.

I'll talk to you later.

**Harris III George** 40:07

Thanks everyone.

**David Williams** 40:07

All right.

Thanks ever.

**Anderson Ivory** 40:09

Alright, bye now.

**Cruz Maria** stopped transcription
