How to Purchase

Specialized garden products are now available at the Miramar Greenery including a variety of compost, mulch and wood chip products.

City of San Diego residents may self-load up to two cubic yards of compost or mulch for free with proof of residency. There is a charge for this product if Greenery staff loads the compost or mulch. There is also a charge for wood chips.

Fees must be paid at the Miramar Landfill fee booth located at the landfill's entrance.

All Greenery products are priced by the cubic yard and include sales tax. One cubic yard is equal to the size of six 32-gallon trash cans.

Ω

How to Pick Up Compost, Mulch, and Wood Chips

Customers pay for products at the landfill entrance and pick up materials at the Miramar Greenery after showing their receipt. Those who hand-load mulch or compost need to provide their own tools such as a shovel, container and tarp. Those who paid for compost, wood chips or mulch will have their vehicle loaded by one of the Greenery equipment operators. All vehicles must have their loads covered. **It is advised to bring and wear a dust mask while loading and spreading the material.**

Please call the Miramar Landfill at 858-492-6100 to confirm availability on a particular day.

Ω

Payment Information

- Only cash and checks are accepted. No debit or credit cards.
- Make checks payable to **City Treasurer**.
- A penalty of \$27 will be imposed on all returned checks.
- Please request a receipt for your transaction.
- For efficient transactions, large volume/tonnage customers can apply for [Deferred Payment Account Services \(/environmental-services/miramar/fees/dpa\)](/environmental-services/miramar/fees/dpa)

How to Purchase

Specialized garden products are now available at the Miramar Greenery including a variety of compost, mulch and wood chip products.

City of San Diego residents may self-load up to two cubic yards of compost or mulch for free with proof of residency. There is a charge for this product if Greenery staff loads the compost or mulch. There is also a charge for wood chips.

Fees must be paid at the Miramar Landfill fee booth located at the landfill's entrance.

All Greenery products are priced by the cubic yard and include sales tax. One cubic yard is equal to the size of six 32-gallon trash cans.

()

How to Pick Up Compost, Mulch, and Wood Chips

Customers pay for products at the landfill entrance and pick up materials at the Miramar Greenery after showing their receipt. Those who hand-load mulch or compost need to provide their own tools such as a shovel, container and tarp. Those who paid for compost, wood chips or mulch will have their vehicle loaded by one of the Greenery equipment operators. All vehicles must have their loads covered. **It is advised to bring and wear a dust mask while loading and spreading the material.**

Please call the Miramar Landfill at 858-492-6100 to confirm availability on a particular day.

()

Payment Information

- Only cash and checks are accepted. No debit or credit cards.
- Make checks payable to **City Treasurer**.
- A penalty of \$27 will be imposed on all returned checks.
- Please request a receipt for your transaction.
- For efficient transactions, large volume/tonnage customers can apply for [Deferred Payment Account Services \(/environmental-services/miramar/fees/dpa\)](/environmental-services/miramar/fees/dpa)

RFI Information

Question: During a landscape coordination meeting on 8/10 a couple of concerns were raised regarding the planting plan in the median in the North Lot. The concerns are listed below and the attachment shows the location of the concerns. - The existing turf grass is a Bermuda mix and the concern was that if the existing grass is removed, it is highly likely that it will grow back next Spring. Bermuda grass is very resilient and has deep spores or seeds that may not be able to be removed. - The existing irrigation control chart shows a zoning that is different than what the landscape drawings were based off of. The planting as shown will most likely need to be revised resulting in less grass area and more planting area. The area shown on the drawings will receive full sunlight until noon during the Summer and even later during the winter months. The area will not be in full shade until around 4pm.

Proposed Solution: In discussions with Frank it was proposed that over seeding the area with Fescue after construction would provide a well balanced turf that could handle the small amount of shade the area receives and would prevent the issue of Bermuda invading the planting areas. A credit for the removal of the mow curb and new planting would be provided.

Revised RFI Question:

A/E Response

Response Date: 08/17/2017

Answer: District takes no exception to the proposed solution in the RFI. See attached email.
