Graham Champion Labor Compliance and Construction Contracts Supervisor

August 24, 2018

Mr. David Ott SunPower Corporation, Systems 1414 Harbour Way South, Suite 1901 Richmond, CA 94804 David.Ott@sunpower.com

Dear Mr. Ott:

Subject: PS17-0128-02 – Design and Construction of Solar Power Generation Systems at District Sites (SDUSD Project #93570075.1)

Notice to Proceed: No 11R4 - Replace Existing Failed Breaker at Serra High School

This letter constitutes your revised notice to proceed with construction work at Serra HS per your attached proposal COR NO: 16 with the scope of work breakdown dated July 20, 2018, for the not-to-exceed amount of \$10,851.93.

Work on the original NTP began June 15, 2017, and is to be completed by August 27, 2018.

Please refer to this NTP number on all your correspondence and invoices.

Original invoice should be sent to:

San Diego Unified School District PPO Center, Attn: Catherine Bendixen 4860 Ruffner Street San Diego, CA 92111

Please call your construction manager if you have any questions regarding this NTP. Invoicing inquiries should be directed to Catherine Bendixen at (858) 637-6246.

Sincerely,

Graham Champion

Labor Compliance and Construction Contracts Supervisor

Subject: Breaker Replacement

# HMT CHANGE ORDER- BREAKER REPLACEMENT

Scope/Qualifications: Added SDGE Metering

#### Included in this Change Order are the following:

- 1. This change order is based on Local 569 Labor Rates
- 2. This change order contains pricing for HMT to provide and replace (3) breakers that failed the coordination study
- 3. This change order contains pricing for HMT to complete this scope of work after hours on a weekend approved by SDUSD
- This change order contains pricing for HMT to supply a third party testing agency to test the required breakers, per SDGE specs
- 5. Price is based off of the submittal attached, to be reviewed by the SDUSD engineers. Any additional parts or required once switch gear is opened up will be added to this cost

#### Excluded from the Change Order are the following:

- 1. Owner supplied material
- 2. Bonds
- 3. Permit fees
- 4. Repair to unforeseen utilities
- 5. Temporary power and lighting
- 6. Traffic control
- 7. Utility company charges
- 8. Relocation of existing utilities
- 9. Cost of repair to un-foreseen utilities
- 10. Hazardous Material Removal
- 11. Additional costs associated with any mobilization/re-mobilization
- 12. Additional costs in delayed digging due to unforeseen circumstances
- 13. Restriping of any damaged parking spaces
- 14. Providing SDGE monitoring enclosures
- 15. Installing SDGE monitoring equipment
- 16. Overtime rates for installation after hours or on weekends
- 17. Any additional costs for testing or third party inspections requested by SDUSD/SunPower IOR's.
- 18. Any requests made by the project IOR will be an additional cost to this scope
- 19. Any temp power or generators required for keeping kitchen and campus food services cool. This direction will need to be given by SDUSD and will pricing will be added accordingly
- 20. Any additional coordination study, arc flash, or short circuit calculation and report editing
- 21. Any replacement of breakers that do not re-energize once power is restored to the campus
- 22. Security or added man power for school supervision during the shut down
- 23. Recertification of gear by a third party testing agency

Total cost of proposed Change Order	\$10,362.00

#### Revised 10/17/06

<sup>\*</sup> PLEASE NOTE: This is not an offer to contract, but merely a quotation of current prices for your convenience and information. Orders based on this quotation are subject to our acceptance of the terms and conditions stated in our written Acknowledgment of order. We make no representations with respect to compliance with job specifications. Above prices do not included accessories unless otherwise stated.

Typical F-Frame Breaker F-Frame Breaker with Electronic Trip Unit

# F-Frame (10–225 Amperes)

#### **Product Description**

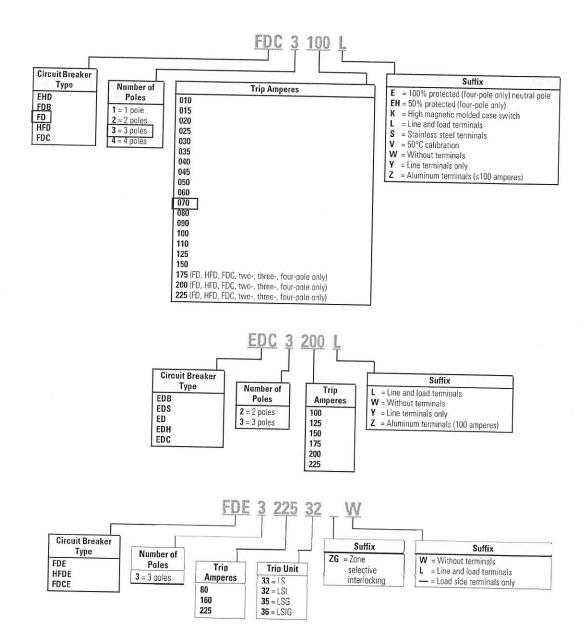

- All Eaton's F-Frame circuit breakers are HACR rated
- All circuit breakers 10 through 30 amperes are suitable for HID (high intensity discharge) use
- All F-Frame circuit breakers are suitable for reverse feed use

#### Notes

Not UL listed. 5 kAIC interrupting rating.
 UL listed for SWD applications, see NEC Article 240.83(d).

Typical J-Frame Breaker

# J-Frame (70-250 Amperes)

# **Product Description**

- All Eaton's J-Frame circuit breakers are HACR rated
- J-Frame circuit breakers are available as individual components (frame, trip unit, terminals), or factory assembled complete breakers
- J-Frame circuit breakers with non-interchangeable trip units are suitable for reverse feed use
