- ④ Wood Shop to Music Room Conversion
- ⑤ Concessions/Ticket Booth/Restroom Facility
- ⑥ Weight Room
- ⑦ Athletic Infrastructure Relocation
- ⑧ Stadium Lighting and PA System
- ⑨ Whole Site Modernization

Dedicated in 1925, Point Loma High School is the third largest of the 16 high schools in the San Diego Unified School District. The compact campus is situated on 16.70 acres nestled in the Loma Portal section of Point Loma, an area made up of residential homes and small businesses.

The original school was rebuilt in 1976. Additions have been made through the years, and most recently, under Propositions MM and S/Z. The school consists of 22 permanent buildings. The masonry construction is ideal for noise mitigation from overhead aircraft. The total building area is approximately 250,000 square feet. The nearly 2,000 Point Loma students have access to a state-of-the-art motion picture facility, newly renovated music room, auto shop, media center, and performing arts center. Point Loma High also features a football stadium with an all-weather track, softball field, gym, and new weight room.

Point Loma HS Two-story Classroom Building

Point Loma HS Two-story Classroom Building

Completed: January 2011

Funded by: Proposition S and
Overcrowded Relief Grant (ORG)

A 15,358-square-foot, two-story classroom building replaced existing district portables. The permanent structure comes equipped with i21 technology upgrades and also houses sports medicine examination and rehabilitation areas that will be utilized by participants in the school's College, Career & Technical Education (CCTE) Sports Medicine Program.

Point Loma HS Woodshop to Music Room Conversion

Completed exterior

Pre-construction

Completed: October 2012
Funding: Proposition S

The 3,785-square-foot wood shop area (consisting of three existing classrooms and four existing storage rooms) was renovated and converted into the new Dr. Dan Nelson Music Center, complete with acoustical and noise reduction upgrades.

Completed renovation

Point Loma HS Weight Room

Completed building

Completed: May 2012

Funded by: Proposition S and Jimmie Johnson Foundation/Lowe's Toolbox for Education™ Champions Grant

Located adjacent to the football field and track, the new 3,190-square-foot weight room features workout stations and an area for agility drills. The weight room's exercise equipment was funded by a Jimmie Johnson Foundation/Lowe's Toolbox for Education™ Champions Grant and is utilized by athletes and physical education classes.

Completed interior with workout stations

Point Loma HS Concession Stand/Ticket Booth & Restroom

Completed building

Completed: June 2013

Funding: Proposition S

Point Loma High School stadium now features a 1,100-square-foot concession stand/ticket booth and accessible restroom facility.

The new athletic support facility and upgrades feature:

- New entry gates and plaza to stadium
- Two-window ticket booth
- Three-window concession stand
- Men's and women's restrooms

Point Loma HS Athletic Infrastructure Relocation

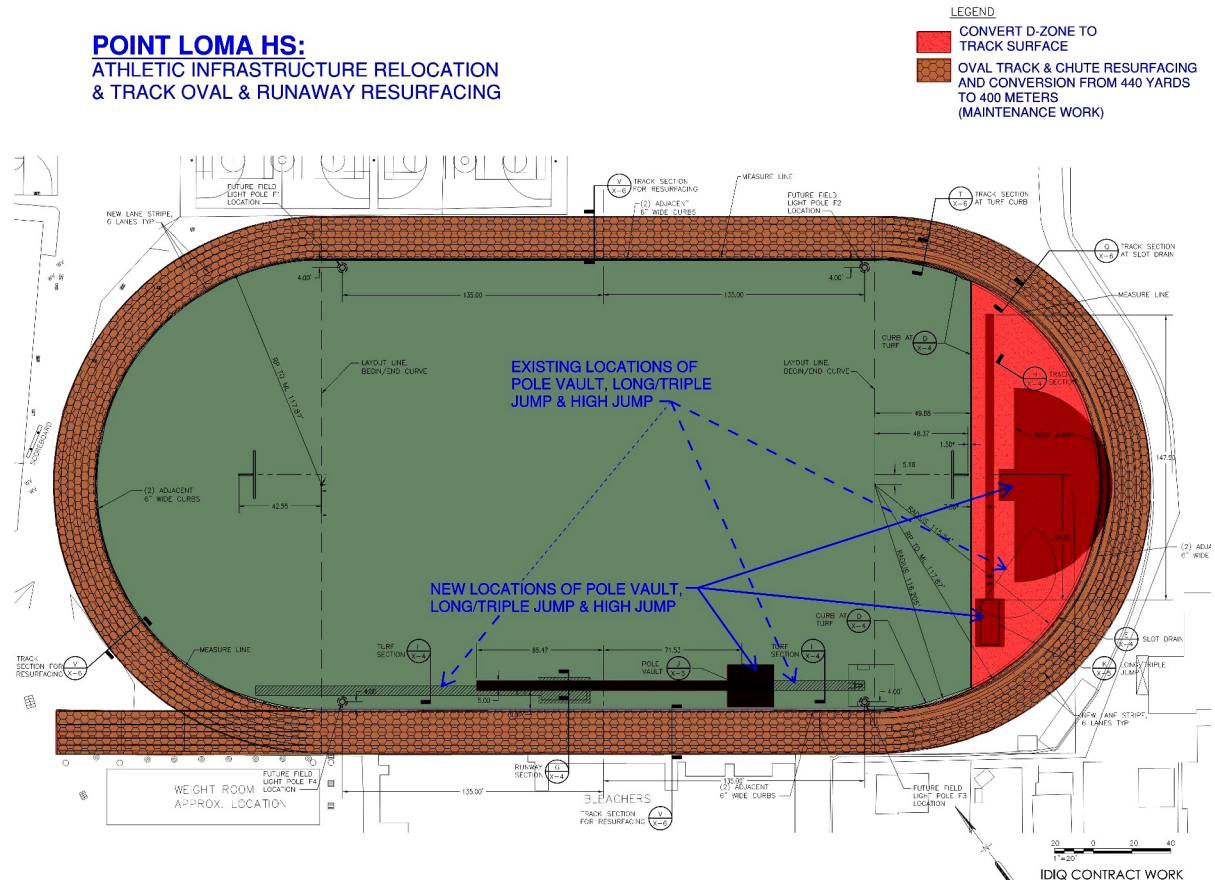

Completed: September 2016
Funding: Proposition Z

This project main purpose was to facilitate safe stadium operations and to complete maintenance and warranty repair work of the following athletic items:

- Convert track from 440 yards to 400 meters
- Relocate Pole Vault, Long/Triple Jump and High Jump
- Convert east D-zone area to track surface
- Resurface oval track and runway (maintenance work)

These new areas were designed and built with appropriate field and track requirements as well as new storm drainage systems. All surfaces were repainted and restriped according to site plans.

Point Loma HS Stadium Lighting and PA System

Completed: August 2017

Funding: Proposition Z and State Funds (Lighting)

The Lighting and PA system upgrade at Point Loma High School will include improvements to the stadium and athletic fields. This phase of work includes the following:

- Installation of Field Lighting and Grandstand (bleacher) Lighting
- Installation of PA System
- Installation of an Electrical Unit Substation

Renderings show placement of Lighting and PA systems

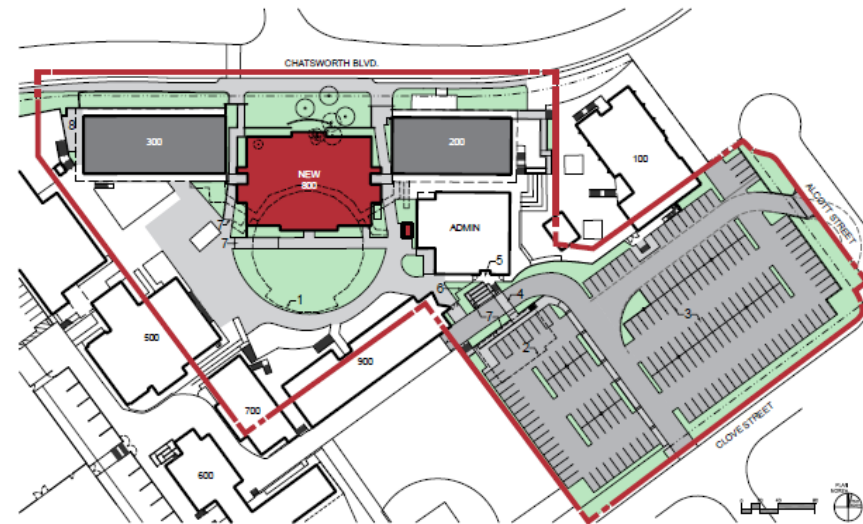

Point Loma HS Whole Site Modernization

Completed: August 2022

Funding: Propositions S and Z

The Whole Site Modernization project includes design and construction of a new three-story, 38,000 square-foot building, renovation of the 200 and 300 buildings, relocation of the campus Main Distribution Frame (MDF), and upgrades to the athletic facilities. The new building features a library/media center on the first floor, ten classrooms each on the second and third floors, and a multi-functional central outdoor area. On-site parking capacity is increased with the reconfiguration of the Clove Street parking lot, which features a visitor's security entrance to the campus. Other site improvements include installation of a new bus turnout, landscape and hardscape improvements, constructing new security enclosures, practice fields, and technology upgrades.
